ROYAL NAVY OPEN MASTERS SWIMMING COMPETITION 2019

1. As a loyal supporter of our event over the years, I thought it prudent to write to you to explain why there is no Royal Navy Open Masters event planned for 2019.
2. As you may well be aware the event has grown over the years, from the humble beginnings at the 25m pool at RNAS Yeovilton to its current venue at Millfield School. Whilst the location provides a great venue for the event, we have to arrange our dates around the priorities of the school each year. For 2019 we have been unable to find dates that fit with both us as the organising club and all the people we rely on to run the event, or if we have found a date, it has clashed with already established events in the south and south west.
3. As a club we also looked at alternative venues in the south and south west that we could host an event in for 2019. Unfortunately, these have also not given us a suitable solution for 2019. It is therefore with regret that we had to take the decision this year not to run an RN Masters event.
4. We are continuing to look at options for 2020 and hope we can rely on your future support for our event.
